

# UPS® Certified Solution

UPS Ready

CORESense is working with UPS to apply the most innovative technologies to move that business faster. CORESense is integrated to both UPS WorldShip® and UPS Online Tools® for shipping cost calculation and order tracking.

When you choose to ship with UPS through CORESense, your operations gain a more streamlined process for picking, packing and shipping your orders faster. Your customers benefit from the most up-to-date shipping information before they checkout, as well as provide online tracking and automated status emails of their packages.
